

Capability Statement

Southern National Track Services, Inc.
Gary Plezia – Mobile: 954-818-9497

www.SouthernNationalTrack.com

Core Competencies:

Southern National Track Services, Inc. (SNT) expertly performs any type of railroad related construction, repair, and maintenance.

- New track construction
- Track inspections and maintenance programs, including tie and rail replacement and track resurfacing
- Emergency derailment repairs and rail car re-railing services
- Port type crane rail installations including direct fixation, sole plate/epoxy grout- or steel mounted systems
- Transit track construction including contact rail systems
- Continuous rail welding, installation of welded rail, and rail thermal distressing
- Poured invert slab track, plinth pad systems, Iron Horse style continuous poured track, and street car track systems
- Track construction and maintenance for power and mining company facilities including stacker/reclaimer and industrial crane rail facilities
- Track switch and RR-Xing construction including wood, rubber, and concrete surfaces

Past Performance:

Jacksonville Port Authority, Florida

\$ 6.4 Million track replacement project (replacing over 3 miles of track, 21 switches, and collectively 1.3 miles of paved RR crossings)

Contact: Marvin Grieve, Director, Project Manager – (904) 357-3064

Progress Energy, Crystal River, Florida

\$ 2.7 Million track replacement project including switches and RR-Xing

Contact: Paula Rushton – (352) 464-2872 – Paula.Rushton@pgnmail.com

Duke Energy, Crystal River, Florida

\$ 2.6 Million track upgrade project (3 miles of track with new 136# welded rail trackage and all ballast rock)

Contact: Justin Herrera – (352) 601-1539 – Justin.Herrera@duke-energy.com

Florida Rock/Vulcan, Miami, Florida

\$ 3.5 Million project (constructed a new 6-track rail yard complete including all original clearing and grading)

Contact: Jason Jowers Vulcan – (786) 606-0301

Titan America, Medley, Florida

\$ 2.1 Million (limestone mine track construction and maintenance)

Contact: Juan Restrepo – (786) 299-7080

CEMEX Miami, Florida

\$ 500K/year maintenance contract/Contact: Jose Diaz – (786) 205-4038

Indian Town Power Company, Indian Town, Florida

\$ 250 K/year annual maintenance (CSX unit coal trains operations)

Contact: John Allen – (772)260-9648 - John.Allen@indiantowncogen.com

Differentiators:

SNT is uniquely certified in transit track construction, port-and industrial crane rail construction, and in concrete related slab track construction methods.

SNT uses innovative production track surfacing equipment software that results in perfect track geometry.

SNT owns high-production track tie replacement equipment.

Bonding capacity:

Per incident \$ 5,000,000

Aggregate \$ 8,000,000

Additional Railroad/Heavy Construction licenses in the States of:

Alabama, Mississippi, and Louisiana.

Company Data:

Founded in 2000, SNT operates throughout Florida and south east United States providing railroad track construction-related activities.

Our highly-experienced staff originates from the construction management side of the Major Class I Railroads. All employees are MSHA Part 48 certified.
